This summer camp is for all riders who wish to improve their flat and jumping skills. Each lesson will address problems that you and your horse may be having.

RIDER AND HORSE FITNESS ARE ESSENTIAL.

You may be riding up to 3 hours a day & it may be hot weather. We will tailor individual needs which we address in the camp questionnaire to be sent out at a later date after we have received applications. Riders will divide into groups of four for flat work, dressage, gymnastics, stadium and cross country. Depending on the number of riders there will be two or three lessons for each group on Saturday and Sunday. Times will be posted each morning. If the weather is very hot we will not ride during the middle of the day. If it rains heavily there is a large indoor, if there is light rain we ride.

Luanne Leonard is a 1978 graduate of Penn State and was National Champion rider on the Intercollegiate Team. She received her A rating in Pony Club and is now on the USPC show-jumping committee. Luanne has organized adult and PC camps for the last 15 years. For the past 25 years, she has trained riders of all levels up to the USET Equitation Finals. For the past two years Luanne has also given OPRC lessons at Jeanie McNear's farm in the fall which is always popular.

Karen Evans - see evanssporthorses.com. Karen usually teaches the gymnastic and jumping classes, she is also a wonderful instructor, bringing enthusiasm and encouragement to all her students. Last year she said she really enjoyed teaching OPRC each summer – the feeling was mutual.

NEW THIS YEAR: Members who would like to bring their horses but DO NOT want lessons
COST: From \$200-260. Price depends on chosen accommodation & number of nights. Space limited to six & includes all of the above with the exception of lessons.

Piedmont is also welcoming non- riding spouses and OPRC members who would like a break without their horse. There is plenty to do at Penmerryl in addition to exploring this lovely historic area. Antiquing, golf and fishing the local trout streams are very popular endeavors.
